

10X WITH AI

GBI SINGAPORE 2026 · 3-DAY PRESENTATION MASTER PLAN

SLOT ARCHITECTURE

DAY	SLOT	LENGTH	GOAL	SALE
Day 1	First content	75 min	Plant identity. One huge wow. Hook for Day 2.	None
Day 2	Last session	90 min	Full pitch. Stack. 3 closes. Walk-to-back.	\$1,997
Day 3	Breakout	60 min	Convert fence-sitters. Deepen for buyers.	Soft re-pitch
Day 4	Mega/repeat	60 min	Mac bundle. Repeat for non-buyers.	Mac-led

THE NUMBERS

445

PEOPLE IN ROOM

356

ENGLISH SPEAKERS

~89

MANDARIN (CHINA)

\$1,997

OFFER PRICE

\$37,964

STACK VALUE

15-20%

CONVERSION TARGET

★ REVENUE TARGET

60-90 sales × \$1,997 = **\$120K-\$180K**. Last year: 40 sales / 335 = 11.94% at \$1,597. This year: more English speakers, no Peng Joon competition, hotter topic. Realistic upside is 15-20%.

WHY 3 DAYS BEATS A SINGLE-SHOT PITCH

A 1-day pitch forces the room to decide before they trust you. A 3-day arc lets the room prime itself.

DAY 1 — PURE VALUE, ZERO SALES PRESSURE

They like you. They tell their friends at lunch about your demo. The room **primes itself**. No CTA, no order forms, no pressure. Open the stack at the end. Leave them leaning forward.

DAY 2 LAST SLOT — THE FULL PITCH

By the time you're up, they've sat through Brunson-style pitches from 4-5 other speakers. You're the one they came for. The close lands soft **because the trust is already there**.

DAY 3 BREAKOUT — SECOND TOUCH

Fence-sitters from Day 2 (everyone who said "let me think about it") get a second touch. Buyers get deepening. Both groups leave warm for Day 4.

DAY 4 REPEAT — LAST SHOT

Mac bundles. Anyone who walked Day 2/3 gets a bigger frame. **Three rooms to convert. Not one.**

THE AUDIENCE YOU'RE SELLING TO

This room is a hybrid: GBI veterans (operators, want tactical implementation, run on math) plus MMI graduates (already conditioned to declarations and identity-shifts).

AUDIENCE TRAIT	WHAT IT MEANS FOR YOUR DESIGN
MMI conditioned	Use Eker mechanics — declarations, identity locks, "rich vs. poor" reframes
GBI tactical	Show ROI math. Hard numbers. "Pays for itself in 15 days."
Asia-mixed	Mandarin track in cohort. Local case studies (Singapore / KL / Jakarta)
Multi-speaker fatigue	Show layer is non-negotiable. State engineering at every block
Pre-buying conditioned	Already familiar with stage closes — your close needs MORE differentiation, not less

★ THE SINGLE MOST IMPORTANT SENTENCE

By the time the \$1,997 number hits the slide on Day 2, the audience has declared **three times out loud** that they're the kind of person who builds systems that work for them. Saying no becomes inconsistent with who they've publicly been for two days.

THE HOOKS THAT RUN ACROSS ALL 3 DAYS

These are the show layer. Plant Day 1 minute 12. Fire across all 3 days. By Day 3 they're tribal.

THE STREISAND HOOK · MISSION: IMPOSSIBLE THEME

30-second clip plays before **every demo**, every time, identical. By Day 3, the room cheers at the first four notes. They leave humming it. They hum it Tuesday morning when they sit down to build their first AI. *That's the trigger that makes them buy.*

THE ANCHOR WORD · "TUESDAY"

Plant in Day 1, minute 12. *"Last Tuesday I deployed three AI employees in 90 minutes."* Drop it every time you describe the post-cohort future. By Day 3, just saying "Tuesday" lands a moment.

THE CATCHPHRASE · "WHO BUILDS THE AI?" → "I DO!"

Plant in Day 1, minute 14. Trigger every transition. **12+ times across 3 days.** By Day 3 it's tribal — the room shouts before you even ask.

You: "Who builds the AI?"

Room: "I DO!"

You: "Louder. WHO BUILDS THE AI?"

Room: "I DO!"

THE PHYSICAL ANCHOR

Open hand to chest. Fire on every "yes" moment. By Day 2's close, the gesture alone moves the room. Eker mechanic at industrial scale.

THE WEALTH REFRAME (MMI HOOK)

Poor people hire. Rich people deploy.

Fire on Day 1 minute 20, Day 2 minute 5, Day 2 close, Day 3 open. The MMI veterans in the room (Eker conditioning) react. The line plants the offer's worldview without selling.

MUSIC CUE LIBRARY

Every cue maps to a state. State maps to a sale.

MOMENT	TRACK RECOMMENDATION	LENGTH
Walk-on (every day, identical)	"Lose Yourself" / "Power" / "Eye of the Tiger" — pick ONE, never change	30s
Demo drop (every demo, identical)	Mission: Impossible Theme (5/4 time signature)	30s
Stack reveal (D2 close)	Hans Zimmer "Time" / "Heart of Courage" (Two Steps From Hell)	90s
Decision moment (D2 + D3 close)	"In the Hall of the Mountain King" / Stranger Things theme	30s
Dance break (D2 min 30)	"Don't Stop Me Now" / "Uptown Funk"	60s
Reflection bed (valleys, anchor moments)	Hans Zimmer "Time" (quiet) / Einaudi "Experience"	90s
Exit / tribe (every break)	"September" (EWF) / "Don't Stop Believin'" — pick ONE	90s
Pre-close emotional reset	"Hallelujah" (instrumental)	60s

STATE ENGINEERING RULES

- **Stand every 15-20 minutes.** Non-negotiable for an Asia 4-hour audience.
- **Power breath × 5** at every block opener. Resets the room in 30 seconds.
- **Pattern interrupt every 12 minutes.** Sound, movement, callback, music — never teach >12 min flat.
- **Pick 3-5 barometer audience members** in first 5 min of Day 1. Read by them.
- **Fire physical anchor** on every peak yes-moment. By Day 2's close, the gesture itself triggers the state.

ACTIVITY DENSITY

One activity every **7-10 minutes minimum**. Never teach > 12 minutes in a flat block. The fix for "you teach too much" isn't less content — it's more *changes*.

THE ENERGY CURVE ACROSS ALL 3 DAYS

You cannot live in peak state. Peaks need valleys. The close lands on a peak because the valley right before it is engineered.

Day 1 builds. Day 2 peaks at the close. Day 3 lands soft on social proof + deadline.

THE LETHAL SLUMPS (AND THE COUNTER)

SLUMP	WHEN	COUNTER MOVE
D1 mid-content fade	~min 50	Stand-up + partner share (SE-6 TTN)
D2 post-lunch dip	~min 30	Dance break + most ambitious demo (Sales AI)
D2 pre-close fatigue	~min 65	Engineered valley → Ops AI (peak 2) → close ramp
D3 fence-sitter exhaustion	~min 30	Social proof of buyers + live Q&A (active mode)

PRE-STAGE ROUTINE (UNIVERSAL • 60 MIN BEFORE EVERY SLOT)

1. **2 min power breathing** — short fast nasal inhale, forceful mouth exhale, ~30 reps
2. **Power pose x 60s** — V-shape arms, alone in green room or empty corner
3. **Recite opening 60 seconds out loud** — not in your head. Out loud.
4. **Entrance anthem on earbud** — same song every time, low volume
5. **Fire physical anchor** at peak energy. Lock the state in.
6. **Final ritual line** — yours: *"I'm here for them."*

TECH CONTINGENCY — READ DAILY

1. Backup recording of every demo, ONE keystroke away. AV operator's only job during demos.
2. Cellular hotspot on standby. Personal hotspot, fully charged, as WiFi failover. Test Tuesday morning.

3. Failure recovery scripts taped to lectern. Lines for: WiFi dies, volunteer freezes, AI generates weird output, joke flops, you forget your place, full stack down, heckler.

COMING IN PARTS 2, 3 & 4

Each day gets its own minute-by-minute run sheet, slide cues, music triggers, and coordinator's checklist.

PART	DOCUMENT	CONTAINS
Part 2	Day 1 — The Reveal	75-min run sheet · Open hot · Identity · Marketing AI demo · Day 2 hook
Part 3	Day 2 — The Close	90-min run sheet · Sales AI demo · Ops AI showstopper · Full 22-min close script
Part 4	Day 3 — The Re-pitch	60-min run sheet · Social proof · Live Q&A · Soft re-pitch · Day 4 hook · Crew brief

ALREADY BUILT (IN THIS FOLDER)

FILE	PURPOSE
10X_WITH_AI_OFFER.pdf	Print-ready offer one-pager (1.46 MB, A4)
AI_EMPIRE_OFFER.html	Editable source for the offer one-pager
CLOSE_SCRIPT.md	Full 22-min Day 2 close + 12-objection bank
LIVE_DEMOS.md	Marketing AI / Sales AI / Ops AI demo choreographies
BONUSES.md	The 11-item stack with \$-anchors + Founder OS detail
OFFER_SCORECARD.md	10-criterion offer rating methodology (current: 9.3/10)
GBI_PRESENTATION_3DAY.md	Master plan in markdown (this is the source for Parts 1-4)

★ TELL ME TO CONTINUE

Reply "*continue*" or "*Day 1*" and I'll build **Part 2 — Day 1 Run Sheet** in the same styled HTML + PDF treatment.

Or tell me to swap any element of this overview before we proceed.
